(54) DISK CARTRIDGE STORAGE CASE

(57)Abstract:

PROBLEM TO BE SOLVED: To store two disk cartridges, make easy the taking-in-and-out operations and improve the productivity of a storage case.

SOLUTION: A disk cartridge storage case is provided with two half-split cases 11 and 12. The half-split cases 11 and 12 are provided with upper faces 19 and 25 and front faces 20 and 26 respectively opened thereon and provided with storage recesses 11a and 12a storing the disk cartridges D to be taken in and out individually from the front faces 20 and 26 in the front and rear direction. The half-split cases 11 and 12 are connected each other to be opened and closed by a foldable integrally molded hinge section 13. The half-split cases 11 and 12 forming the upper and lower overlappingly closed state can be held by an integral molding locking member 14. All of the half-split cases 11 and 12, the integrally molded hinge section 13 and the integrally molded locking member 14 are integrally plastic molded.
